

PE & SPORTS GRANT 2015-16 OUTCOMES REVIEW AND 2016-17 TARGETS

EVALUATION & IMPACT

Once again we have had a very successful year in regards to sports and PE at Penwortham Primary School. Our objectives for the year were:

- To ***'increase participation and competitive sport for all'***
- A 50% take-up by girls in extra curricular activities during academic year 2015/2016
- To increase South Ribble Sports Development input into sporting opportunities for our EYFS and Infant children by more than 50% over the academic year.
- To provide at least 5 extra curricular sports based clubs for EYFS and Key Stage 1 pupils over the academic year 2015/16.

The range of sporting/outdoor activities offered to pupils throughout 2015/16 is detailed below:

After School Coaching Sessions Funded by Sports Premium	Additional Sports/Outdoor Coaching
Hockey Netball Multi– Skills KS1 (2 Courses) Tag-Rugby Tennis 	Pro Skills Soccer Pro Skills Golf Hi-5 Netball Football (Mixed team) Football (Girls) Kwik Cricket (Boys) Kwik Cricket (Girls) Archery Ju-Jitsu Swimming Wild Things Outdoors 

OUTCOMES

'To increase participation and competitive sport for all'

Overall attendance for all extra-curricular activities increased by 47% compared to 2014/15 with pupils participating in 324 sports sessions compared to 221 over the previous year. Whilst this is very pleasing our data indicates that the pupils who enjoy sport are increasing/expanding their sporting experiences rather than new children joining the extra-curricular activities/clubs. Further efforts will be made during 2016/17 to encourage the participation of all children (Please see Target 2 overleaf).

A 50% take-up by girls in extra curricular activities during academic year 2015/2016

We exceeded this target significantly, with 74% of girls taking part in one or more sporting activities. Girls were particularly keen to participate in the Girls Football and netball tournaments and after-school netball with both Miss McKenna and South Ribble Sports Development. During the next academic year we hope to build on this success and further increase the uptake—one of the ways we hope to achieve this is by introducing After School Zumba which we know the girls (and hopefully boys) will enjoy. Please see Target 3 below.

To increase South Ribble Sports Development input into sporting opportunities for our EYFS and Infant children to a 50% equivalent over the academic year

School buys in 30 curriculum day sessions of sports/PE as part of our Service Level Agreement with South Ribble. Within this, 12 day sessions (4 sessions over 3 classes) were allocated to KS1. We introduced two multi-skills after school clubs which were specifically aimed at the younger children and the uptake and response from parents was very pleasing. Reception children completed the 'Tots on Trikes' Level 1 and 2 courses learning basic cycling skills whilst having fun at the same time.

Last year EYFS/KS1 were allocated 8 sessions (33%) of bought in sporting curriculum time. During 2015/16 this was increased to 50% equivalent (12 sessions) of the South Ribble time which meant the target was achieved.

To provide at least 5 extra curricular sports based clubs for EYFS and Key Stage 1 pupils over the academic year 2015/16

Although provision for EYFS and KS1 increased, we did not meet the target of providing 5 extra curricular sports based clubs. This is a target we will carry forward to this year and hope that the children will take up the new opportunities.

COMPETITIONS—SUCSESSES

We participated in many inter-school sporting events throughout the year ranging from indoor athletics to kwik-cricket. Overall we had a very successful year:

- ◆ Penwortham Football League—Winners
- ◆ South Ribble Football League—Second place (lost on goal difference!)
- ◆ Cricket—Third Place
- ◆ Swimming—Third Place
- ◆ Netball—This was our first year of competing in the local Netball Tournament. The children did fantastically well and we look forward to competing again next year.

I would like to thank all the children who competed in the events. Their behaviour, conduct and sportsmanship was exemplary—they were a credit to the school on every occasion. Well done!

TARGETS FOR 2016/2017

1. To increase EYFS/KS1 sporting opportunities and participation in clubs by providing 2 extra lunch-time curriculum clubs.
2. To attract/encourage 10 children who do not, at present, participate in a sports club.
3. To build on our success of providing more sporting opportunities for girls (introduce 3 new clubs over the year).
