

WRIST

COLLABORATION LEARNING LEADERSHIP

WHO WE ARE

WRIST is a family of schools from in and around the South Ribble area. We have been collaborating as a cluster since the mid-1990s and continue to support each other in ensuring the highest quality of education possible. We provide a network of support and innovation, delivering training and enrichment opportunities for pupils and staff alike.

OUR VISION

Our vision is to ensure high-quality education and positive outcomes for all children through partnership and shared responsibility using our bespoke CPD model for staff and governors under the three headings of Collaboration, Leadership & Learning.

OUR VALUES

As a family of schools, we support and nurture each other, growing the next generation of school leaders and ensuring the care and education of our children is the best it can be.
